PROFILE

Software Engineer with internship experience in MERN stack development. Skilled in building responsive web applications using React, Node.js, and Tailwind CSS. Passionate about creating clean UI and translating Figma designs into functional applications.

PROFESSIONAL EXPERIENCE

08/2025 – 02/2026
Remote

- Software Engineer Intern**
- Developed the official company website for the startup using **React** and **shadcn/ui**.
 - Designed the complete site structure and visual identity in **Figma** before implementing the full-scale development in **React**.
 - Engineered three major production-grade web platforms (E-commerce, Restaurant, and Corporate) utilizing the **MERN** stack.
 - Integrated Figma into the daily development workflow to ensure pixel-perfect implementation of UI components with shadcn/ui and Tailwind CSS.
 - Developed a custom Admin Panel using the MERN stack for real-time content management and dynamic menu updates.
 - Managed automated version control and package dependencies using Git, GitHub, and NPM.

EDUCATION

08/2023 – Present
Kandy, Sri Lanka

Higher National Diploma in IT,
Srilanka Institute of Advanced Technological Education
Ajmeer National School Matale

TECHNICAL SKILLS

Frontend: React (Vite) | JavaScript (ES6) | HTML5 | CSS3 | Tailwind CSS | shadcn/ui

Programming Languages: Java | PHP

Databases: MongoDB | MySQL

Backend: Node.js | Express.js

Design & Tools: Figma | Git | GitHub | NPM | Postman | VS Code

Architecture: MVC | OOP | Agile Development | Responsive Design

LANGUAGES

- Tamil
- English
- Sinhala

CORE INTERNSHIP PROJECTS

Catamaran Beach Restaurant, *Full-Stack MERN*

- Designed and Developed a visually immersive restaurant platform featuring a unique, interactive book-style digital menu.
- Built a dedicated Admin Panel using the MERN stack to allow staff to update menu items, prices, and availability in real-time.
- Crafted the UI in Figma and implemented it using shadcn/ui for a clean, upscale aesthetic.

Osumedura Pharmacy, *React / Vite*

- Built a modern e-commerce platform with specialized product carousels and a custom prescription upload feature.
- Focused on a "glassmorphism" design style and mobile-first responsiveness to ensure a high-end user experience.

SnakeBytes Website, *React / Vite*

- Designed and Developed website for the software company that I worked with, featuring advanced "reveal-on-scroll" animations and minimalist layouts.
- Implemented a consistent design system using shadcn/ui components for rapid, scalable development.

CERTIFICATES

- Career Essentials in Generative AI by Microsoft and LinkedIn [↗](#)

ACADEMIC PROJECTS

ChatBot for SLIATE Website [↗](#)

Stack : React.js, Flask, REST API

- Designed chatbot to assist students with course and registration info. Features include theme switching, download chat, and AI integration.

Rathnayake Stores Website (Live URL) [↗](#)

- Developed responsive e-commerce site using HTML, CSS, PHP, JS with product listings, cart, checkout, and UX focus.

Library Management System [↗](#)

Stack : Java

- Developed Java Library Management System with Admin/Member panels, Swing UI, MySQL backend. Mainly used OOP principles and built with MVC architecture

Task Management System [↗](#)

Stack : React, Node.js, Express, MySQL, JWT

- Built a full-stack task app with login, task CRUD, filtering, and modular REST APIs

Online MCQ Exam System [↗](#)

Stack : React, Node.js, Express.js MySQL

- MCQ platform with student/teacher roles, live scoring, and exam analytics.
